Executive summary
Renewal assessment Report

Key data

- 350 RFx created in 2023, -36% on 2022
- 83% of RFx are created using a template, ensuring compliance and reducing manual work significantly
- 1575 contracts created in 2023, -43% on 2022
- 1161 active monthly users
- 500 active unique supplier users, avg. 200 new registrations per quarter

Area of improvements

- RFx:
  - A very low % of RFQs are awarded in Jaggaer
    - Look to utilise recent product release innovations to increase on-line evaluation and awarding levels, to ensure compliance and process efficiency
    - Even when evaluation is done off-line, recording and awarding in the platform delivers significant value
- Contracts:
  - Hitachi is currently moving from Contracts to Contracts+ with AI to take advantage of advanced Authoring, negotiation and rounds functionalities in conjunction with AI clause analysis and risk
  - Look to increase eSignature within Jaggaer by using improvements coming in 24.2 to process visibility and ability to copy non-contract signatories on requests
